

RUG CLEANERS, INC.
Oriental & Specialty Rugs

CHEMICAL-FREE RECYCLED RAINWATER TO CLEAN ALL RUGS

We use water tanks in our
warehouse to collect and
RECYCLE RAINWATER
from our roof.

1 INCH OF RAINWATER
yields 15,000 gallons of water
for us to clean your rugs!

THE RESULT

Washing rugs
with rainwater
results in more
vibrant colors, a
softer feel, and
fabric free of
harsh chemical.
